

Franklin Woods Community Hospital is the first hospital in Tennessee to earn Perinatal Care Certification.

Join us for an OPEN HOUSE Sunday, February 21 2-4 pm

“The Franklin Woods team has always been dedicated to providing the highest quality of care in a patient-centered manner,” said Dr. Grover May, an OB/GYN at Franklin Woods. “This perinatal certification validates the processes that we have followed for many years. As the first hospital in Tennessee to receive this prestigious certification, we are proud to provide a world-class service to our community.”

“By achieving this certification, our community can be sure our wonderful staff and committed physicians are always focusing on quality care for mothers and newborns,” said Lindy White, CEO/VP of Franklin Woods. “We are so thankful to the physicians at State of Franklin OB/GYN Specialists for their dedication and commitment to Franklin Woods and for making this recognition possible.”

The Joint Commission recognized Franklin Woods for achieving integrated, coordinated and patient-centered care for mothers and their newborns.

Franklin Woods underwent a rigorous on-site review where Joint Commission experts completed an independent evaluation of their perinatal healthcare services, focusing on the following key requirements:

- Eliminating early elective inductions, reducing C-section rates and increasing exclusive breastmilk feeding.
- Integrated, coordinated patient-centered care that starts with prenatal and continues through postpartum care.
- Early identification of high-risk pregnancies and births.
- Appropriate management of mothers’ and newborns’ risks.
- Patient education and information about perinatal care services, helping mothers make informed health care decisions.

For more information or to speak with our Perinatal Care Team about this certification, please join us for an OPEN HOUSE on Sunday, February 21 from 2-4pm. Please contact Allison O’Connor at 423-302-6117 or oconnoraj@msha.com.
